◈ WORK EXPERIENCE

Mern Stack Trainee Developer *Faisalabad*
Techloset Solutions
14 August 2022 - 28 February 2023

◇ During my Training I worked on a live project www.bisresume.com worked on frontend and backend to make a user-friendly interface with Next js proper data structuring through redux and use Firestore cloud technologies as a back end to handle and store data of a user.

◇ As we r working as a team I make a strong grip on Git Hub and utilitilize it maximum to enhance my performance and team coordination.
